 PL-5404 Lemon Yellow - Grass, flower centers

Instructions:

1. Cover 10" layers with Fondant.
2. Airbrush Green/Yellow. Leaving the top center brown.
3. Cover (3) 2" fake cakes.
4. Using the Blade/Shell Tool, mark "bark like" lines on the side of the trunk.
5. Airbrush Black. Using a sponge, wipe away Black Airbrush.
6. Airbrush the trunk Brown.
7. Shape a 6" cake to resemble a tree top. Cover in Fondant.
8. Airbrush Green/Yellow.
9. Cut scored columns to the appropriate height.
10. Mark fake cake layers, creating a slight indentation. This will help stabilize the trunk to the cake.
11. Be sure to make the hole for the 6" plate large enough to fit into the top of the trunk.
12. Using icing as "glue", place the trunk on bottom cake layers. Do the same when attaching the tree top to the trunk.
13. Using icing, apply leaves to the tree top.
14. Place all remaining items.
15. Using #3, pipe grass.

Leaf Instructions:

1. Roll out thin layer of Fondant or Gum Paste.
 2. Using Small Rose Leaf Cutter, cut leaf shapes.
 3. Using the Blade/Shell Modeling Tool, mark veins.
 4. Shape leaves over crumpled plastic wrap or paper towels.
 5. When leaves are set, lay out flat on sheet tray and airbrush.
- *Usually takes 24 hours for the Gum Paste/Fondant to set.

Flower Instructions:

1. Roll out thin layer of gum paste or fondant.
 2. Using the Small Calyx/Poinsettia cutter, cut flower.
 3. Using the Ball Modeling Tool, place flower in the palm of your hand and roll the center of the flower until the desired shape is realized.
 4. When flowers are set, airbrush centers Pink.
 5. Pipe centers.
- *Usually takes 24 hours for the Gum Paste/Fondant to set.
